how can i improve the fuel economy on my 2003 lexus rx300. I am getting 22 - 23 mpg on non crowded flat roadways. Otherwise 16 - 17 mpg. i've seen forums where owners "modify" the horsepower or reprogram shift points. I have tires inflated to 32psi and use full synthetic oil and have frequent front end alignments. My RX300 won't shift into park, how can I make go into PARK. 1 Answer Car won't shift into PARK, only Reverse, Neutral, and Drive. Currently have it in Neutral with the emergency brake engaged and wooden planks behind the wheels.
